FINANCIAL REVIEW

Revenue

For the Interim Period, revenue of the Group amounted to HK\$293.7 million, representing an increase of HK\$79.5 million or 37.1% as compared with HK\$214.2 million for the corresponding period in 2013. The increase was primarily due to the growth of the foundation business. The revenue HK\$293.7 million was mainly contributed by four major projects, namely Hong Kong–Zhuhai–Macao Bridge Hong Kong Link Road Prebored H-Pile of HK\$36.8 million, Kai Tak Children’s Hospital of HK\$56.6 million, Area 65C1 Tseung Kwan O of HK\$37.3 million and North Point Estate Lane of HK\$38.2 million respectively, represented 57.5% of the total revenue. Among the aforesaid projects, 55.3% of revenue was contributed by public contracts (Hong Kong–Zhuhai–Macao Bridge Hong Kong Link Road Prebored H-Pile and Kai Tak Children’s Hospital) while 44.7% of revenue was generated by the other two private contracts (Area 65C1 Tseung Kwan O and North Point Estate Lane).

Gross Profit and Gross Profit Margin

Gross profit for the Interim Period was HK\$70.9 million, representing an increase of HK\$5.2 million or 7.9% from HK\$65.7 million for the corresponding period in 2013. However, the gross profit margin decreased from 30.7% for the six months ended 30 September 2013 to 24.1% for the Interim Period. It was mainly due to the increase in revenue was lower than the rise in staff cost and subcontracting charges during the Interim Period.

Staff cost increased by approximately 39.3% to approximately HK\$56.4 million for the Interim Period from HK\$40.5 million for the period ended 30 September 2013. It was mainly due to the increase in number of staff of approximately 20.8% from 216 staff for the corresponding period in 2013 to 261 staff as at 30 September 2014 to cope with our business growth as well as the salary increment for retaining our staff.

Management Discussion and Analysis

Subcontracting charges represent direct costs (e.g. diesel fuel, cement and labor costs) paid to our Group's subcontractors to carry out part of our foundation works.

During the Interim Period, we further increased the subcontracting part of our foundation works, such as drilling, welding and grouting, to our approved subcontractors after considering our internal resources allocation, especially for the tight labor supply in the market. As at 30 September 2014, subcontracting charges was around HK\$61.0 million, representing approximately 27.4% of total cost of sales, as compared to HK\$27.1 million, representing approximately 18.2% of total cost of sales for the corresponding period in 2013.

To mitigate the impact of ever-rising labor costs and subcontracting charges, various measures have been implemented by the management to improve our operating efficiency and labour force, including strengthening of internal training, improving the efficiency of the working lines, acquiring advanced model of machineries and participating campus recruitment talks in order to attract more young new joiners.

Administrative and Other Operating Expenses

Our Group's general and administrative expenses increased to approximately HK\$22.2 million for the Interim Period from approximately HK\$19.3 million for the six months ended 30 September 2013, which represented an increase of approximately 15%. Such increase was mainly due to the increase in the impairment loss on available-for-sale investment, professional fees, staff costs as well as Directors' emoluments.

Net Profit and Net Profit Margin

Our Group's net profit for the Interim Period was approximately HK\$41.9 million, representing a growth of approximately 12.3% as compared to the corresponding period in 2013 of approximately HK\$37.3 million, mainly due to the growth of our revenue of approximately 37.1% which was partially off-set by the increase of the impairment loss on available-for-sale investment, professional fees, staff costs as well as Directors' emoluments. The Group's net profit margin for the Interim Period was approximately 14.3% (2013: 17.4%).

Management Discussion and Analysis

Acquisition of machineries and equipments	51.9	64.9	47.1	17.8
Hiring additional staff	12.0	15.0	4.5	10.5
Partial bank loan repayment	8.0	10.0	10.0	–
General working capital	8.0	10.0	10.0	–
Total	79.9	99.9	71.6	28.3

BUSINESS PROSPECTS

The construction industry in Hong Kong continued to grow steadily. 5 new railway projects as well as Northeast New Territories Development have been announced by the Government. According to the Hong Kong 2014-2015 Budget, HK\$77.9 billion have been allocated to infrastructure by the Hong Kong Government. In addition, it estimated that 71,000 private residential units will be available for sale over the next 3-4 years and 210,000 private/public units will be supplied over the next five years from 150 sites identified for residential use. Steady public expenditure on infrastructure and current growth of private development projects will generate more opportunities for our foundation business in both public and private sectors and our revenue will grow steadily in future.

Management Discussion and Analysis

We shall continue to be one of the leading foundation contractors and increase our market share in foundation works from the public and private sectors in Hong Kong. We shall mainly focus on undertaking foundation works involving the construction of environmental friendly pile type of socket H-pile and mini-pile. We have expanded our scale of business by acquiring advanced machineries, hiring and training more professional staff. The Group believes that by expanding our scale of operation and continued improvement of our competitive strength, we can participate in future mega infrastructure foundation projects and broaden our customer base. We shall continue to achieve future revenue growth and secure various sources of revenue. We aim to build a trusted brand of quality and reliability. In conclusion, we will offer excellent value for money services and become the preferred contractor of our customers.
